

Task 1: Data Collection & Data Source Identification

Dataset Information

1. Dataset Name: Student Performance Dataset

Source: - Kaggle

Dataset Link:

[Student Performance in Exams Dataset](#)

Data Type: Secondary Data

Data Format: CSV (Comma Separated Values)

2. Data Source Description

The Student Performance Dataset contains information about students and their academic performance. It includes details such as gender, parental level of education, lunch type, test preparation course status, and scores in math, reading, and writing subjects.

This dataset is commonly used for data analysis, visualization, and machine learning projects.

3. Reliability of Data Source

- Kaggle is a trusted platform used by data analysts and researchers worldwide.
- The dataset is publicly available and widely used for educational purposes.
- The data is structured and easy to analyze.

4. Sample Raw Data

Gender	Race/Ethnicity	Parental Education	Lunch	Test Preparation	Math Score	Reading Score	Writing Score
Female	Group B	Bachelor's Degree	Standard	None	72	72	74
Female	Group C	Some College	Standard	Completed	69	90	88
Female	Group B	Master's Degree	Standard	None	90	95	93
Male	Group A	Associate Degree	Free/Reduced	None	47	57	44
Male	Group C	Some College	Standard	None	76	78	75

5. Primary v/s Secondary Data

Primary Data

Data collected directly from the original source through surveys, interviews, observations, or experiments.

Example: Conducting a survey among students about their study habits.

Secondary Data

Data that has already been collected by another organization and is reused for analysis.

Example: Kaggle datasets, government reports, research papers.

This Student Performance Dataset is Secondary Data.

6. Common Data Formats

- CSV (.csv)
- Excel (.xlsx)
- JSON (.json)
- XML (.xml)
- SQL Database

7. Tools for Data Collection

Web Scraping

Used to collect data from websites automatically.

APIs

Used to fetch structured data from online services.

SQL

Used to retrieve and manage data stored in databases.

Tool Used in This Task

Kaggle Public Dataset (CSV format)

8. Conclusion

The Student Performance Dataset was obtained from Kaggle, a trusted public data platform. The dataset is available in CSV format and represents secondary data. It contains student demographic information and exam scores, making it suitable for data analysis, visualization, and educational research.
